KEEPING WARM

There isn't much difficulty in keeping warm at this season. There is some difficulty in keeping something that is always ready for lunch or dinner. With the heat of the time you naturally become inactive, and cooking seems irksome. The only way to overcome this backwardness is to use our "ready to use" specialties. They make life more like a pleasure and less like drudgery.

Successful Candidates

Applicants For Teachers Certificates Who Passed the Examination.

Report of Examiners Who Presided at Different Cities.

Several Graduates of Eastern Universities Added to Provincial Staff.

The annual examination of candidates for certificates of qualification to teach in the public schools in the province was held simultaneously in Kamloops, Nanaimo, Nelson, New Westminster, Rossland, Vancouver, Vernon and Victoria, beginning on July 4. The examiners appointed to act with the Superintendent of Education were J. W. Church M. A., Frank H. Eaton, M. A., Edward B. Paul, M. A., James C. Shaw, M. A., and David Wilson, B. A.

The list of successful candidates is as follows:

ACADEMIC CERTIFICATES.

(Names in Alphabetical Order.)

Buason, Ingar, B. A., University of Manitoba; Cummings, John G. B. A., Queen's University, Kingston; Fulton, Clarence, B. A., Dalhousie University, Halifax; Harper, Andrew M. B. A., Queen's University, Kingston; Johnson, Daniel B. B. A., Queen's University, Kingston; Knapp, William B. A., University of Dublin; Mathews, Stanley, W. M. A., Queen's University, Kingston; McGraw, Miss Mary G. B. A., University of Toronto; Miss Winifred L. M. B. A., McGill University, Montreal; Scott-Brooks, Mrs. Jean T. M. A., University of Toronto; Shannon, Samuel B. A., Victoria University, Toronto; Wilson, Herbert G. B. A., University of Toronto.

FIRST CLASS CERTIFICATES.

(Names in Alphabetical Order.)

NEWS OF WINNIPEG.

Canadian Northern Service—Fatal Accident—Oldest Orangeman Dead.

Winnipeg, July 28.—(Special.)—William MacKenzie, president of the Canadian Northern railway, before leaving for Toronto yesterday said he could not give any definite date on which regular passenger service to Port Arthur would be inaugurated, but stated that there was little remaining to be done before the line would be ready.

As the result of injuries received by being knocked down by a car, John Mahinak, an elderly gentleman of Mahinak, Man., died at the Winnipeg General hospital yesterday.

Richard Benish, a pioneer of Hamilton, is dead. Deceased was 95 years of age, and said to be the oldest Orangeman in Canada.

Fuller's coal sheds at Carleton Place and a box car were burned today.

FISH ARE SCARCE.

All Quiet on the Fraser—Leroy Threatens Prospectors and Speculators.

Vancouver, July 28.—(Special.)—There is but little improvement in the salmon run. The Provincial police have returned as their services are not required on the river. A despatch from Fairbairn says the salmon run is now on, and large numbers of sockeyes are heading for the traps.

The convict, Leroy, has shown himself boldly to two prospectors on Powell lake, and pointing a gun told them to come no further. He then defied the Provincial Police, volunteering his opinion of them with many oaths.

REPORT DENIED.

New York, July 28.—Reports that the Atlantic Coast line has acquired or will acquire control of the L. & N. road have been denied by J. P. Morgan & Co. The two interests are said to be working in harmony.

One hundred and twenty new cases of cholera are reported in Cairo.

SPAIN AND ROME.

Sagasta Impatient for Settlement of the School Question.

Madrid, July 28.—Premier Sagasta states that the negotiations with the Vatican regarding the schools conducted by the religious associations are proceeding very slowly, and if they are not finished by October the government will take other steps. The Premier denied rumors that Spain is allying herself with other powers and declared that any alliance would be burdensome.

IMULATES TRACY.

California Bad Man Wounds Several Would-Be Captors.

Fresno, Cal., July 28.—McKinney, a convict, shot five men and escaped into the country in a stolen rig. McKinney first put out the light of a saloon and then in trying to shoot the cards from the hands of a player, wounded the latter slightly. He then went to a livery stable and at the point of a revolver secured a rig. As he was driving off a constable, a deputy, and several citizens tried to arrest him. He opened fire, wounding four of the party.

Wm. Lyna, whose abdomen and legs were filled with buckshot, succumbed to his wounds.

McKinney also filled the right arm of Jos. Barrows, a printer, with shot and put a bullet into the mouth of Deputy Marshal Willis, another into the foot of Deputy Constable Thompson, and a load of shot into the arm of W. D. Wert. McKinney is headed for Fresno county, and it is believed he will make for the mountains. He has a shot gun, a rifle and a revolver, and he said before he was that "they wouldn't be in it" with him.

Canadians

Win At Bisley

McKinnon Challenge Cup Captured After Being Shot For Twice.

Magnanimous Conduct of Australian Team Who Got First Award.

Bisley Camp, July 28.—The McKinnon challenge cup match, which was originally shot off on Wednesday, July 16, and which was ordered to be shot over again today, owing to a protest entered by Lt.-Col. Burland, commandant of the Canadian team, and which was upheld by the winners, the Australians, in refusing to take the prize, was reshot this morning and won by the Canadians. The Dominion's representatives therefore finished up in a blaze of glory, at this match closed the meeting.

The scores of the three leaders were as follows: Canada, 1,375; England, 1,340; Scotland, 1,317. The other teams, including the Australians, who declined the prize after its being awarded them, subsequent to the first decision on Canada's protest, were snowed under.

The team which represented Canada was as follows:

Col. Serg. Maj. M. Macdonnell, 5th R. C. A.; P. T. T. Peddie, 5th Royal Scots; Lance-Corp. S. S. Mortimer, 1st D. S. O. R.; Col. Serg. Maj. F. Richardson, 5th R. C. A.; Capt. Rennie, 2nd Q. O. R.; Col. Serg. J. Moscrop, 6th D. S. O. R.; Capt. R. J. Davidson, 8th Royal Rifles; Pte. G. S. Scott, 43rd D. C. O. R.; Serg. V. J. Smith, 43rd D. C. O. R.; Staff Serg. G. S. Bayles, 10th Royal R. G.; Col. Serg. E. R. Skeddion, 13th Regiment; Staff Serg. C. C. Carruthers, 4th Hussars.

"A RAG, A BONE, A HANK OF HAIR"

New York, July 28.—Sir Philip Burne Jones' painting, "The Vampire," which caused Rudyard Kipling's poem bearing the same title, has been purchased by W. K. Vanderbilt. The price said, it is said, was \$18,400.

La Soufriere

In Eruption

Many People Leaving St. Vincent—Six Thousand Fed by Government.

The Ocean Bottom Sinks to Mile and a Quarter.

Kingston, Island of St. Vincent, July 28.—The Soufriere volcano has been slightly in eruption twice since last Monday. A severe earthquake shock accompanied by a tidal wave, affected the northeast point of the island. Many people, both of the wealthier classes and the laboring, are leaving the island, fearing disaster. The government is still feeding 6,000 persons. The settlement of refugees in huts on acquired lands, on safe localities, is progressing.

The Panama cable repair ship New England, which is engaged in work 18 miles north of St. Vincent, reports that the depth of the sea there has increased to a mile and a quarter. Attempts to pick up the cable have been futile owing to unfavorable weather.

THE BIG COAL STRIKE.

Assistance From Bituminous Miners—Another Injunction Issued.

Indianapolis, Ind., July 28.—Secretary Whelan, of the Miners, said today that the anthracite men are being well cared for. Although the assessment from bituminous miners is beginning to come in, he does not expect the bulk of the first assessment until the next week, because the majority of the miners are paid semi-weekly. The clerical force at headquarters today handed over the funds. The miners have appealed to the members of the American Federation of Labor.

Parkersburg, W. Va., July 28.—Judge Jackson issued another injunction this afternoon of the same general character of those in whose violation "Mother" Jones and others were tried. It was issued upon the application of Clanton, receiver for the Lemington Coal company, and is directed against 20 strikers and organizers.

Reports of the serious illness of Hon. Joseph Chamberlain are denied.

To Amend B. N. A. Act

Important Conference of Maritime Province Premiers Fixed For September.

Want Constitution Changed to Equalize Representation in Parliament.

Several Steamship Companies Tendering For Fast Atlantic Service.

(Montreal, July 28.—Hon. Arthur Peters, premier of Prince Edward Island, was in the city today on his way home from attending the coronation, and made public the interesting information that the Maritime province premiers would hold a meeting in Quebec in September to discuss a very important amendment to the British North America Act.

The Maritime provinces object to losing any of their members in the next redistribution bill. According to the unit fixed by the province of Quebec, each of the Maritime provinces will lose one member. Manitoba and British Columbia had been taken in with the understanding that their representation should not be reduced, and the Maritime provinces premier want this provision applied to them. Premier Peters states that Hon. Mr. Fielding sympathized with them and will do all he can to help them.

The Star's London cable says: The Allan and the Elder Dempster steamship companies, jointly, and also the Furness line and several others, have tendered for the proposed fast Atlantic service between Canada and Great Britain. The Canadian Pacific railway's offer would entail an outlay of \$20,000,000, each passenger steamer costing \$4,000,000, and the freight vessels would cost an average of \$900,000 each.

Insurance circles regard the proposal to make Quebec a summer port as a mistake, owing to the dangers encountered in navigating the St. Lawrence river. They think that a year-round Halifax service would have every chance of success.

A high C. P. R. official informed me that should the government demand a higher speed than 20 knots an hour, the St. Lawrence route would be abandoned.

Much Sympathy With McAdam

Many Eastern Newspapers Think His Sentence Unnecessarily Severe.

Governor Ross' Condition Is Reported to Be Greatly Improved.

Ottawa, July 28.—(Special.)—A score of Eastern Canadian newspapers comment upon the MacAdam's case. While they admit that the Paystreak went too far, the opinion prevails that the case is one for executive clemency.

A telegram from White Horse states that the condition of Governor Ross shows greater improvement than ever. He is able to move around quite a bit.

DUNDONALD'S POLICY.

Gen. Dundonald is a warm advocate of the policy of giving district officers commanding greater authority, or, in other words, he desires to get rid, as much as possible, of appeals to headquarters on trivial matters.

ANOTHER KILLING REGIMENT.

A movement has been inaugurated here to organize a killed regiment, but it is hardly likely the Militia department will grant permission to raise it, as the Canadian government has a military establishment as it can efficiently maintain.

DISEASE IS PREVALENT. There are 44 cases of contagious diseases in the isolation hospital.

FIGHTING THE BARBERS.

A number of the citizens are organizing a "Paderewski club," the object of which is to bring a barber here who will work exclusively for the club members, including a haircut, for 15 cents, as opposed to the city barbers' increased price of 25 cents.

AFRIKANDER DEMONSTRATIONS

Eustathius Reception of Boer Generals at Cape Town.

Cape Town, July 28.—General Dewet proved that he could evade friends as easily as he did foes by arriving here unexpectedly this afternoon and upsetting all the elaborate plans prepared for his reception. He strolled through the streets, casually speaking to his acquaintances and occasionally to a former opponent. Arrangements were quickly made by the Afrikaners to entertain the famous leader tonight at a semi-private dinner, tickets to which already stand at five guineas to Dewet's return was on Sunday when Generals Botha and Delarey attended church. The building was packed, mainly with women and the most expert counterfeiter who ever operated in Chicago, is under arrest. Officers who made the capture found a complete counterfeiting plant and several sacks of bogus money concealed in a hollow work bench

WIFE BEATERS.

Several Cases Brought to Attention of Chief of Police.

No less than six women complained to Chief Langley yesterday of assaults committed upon them by their husbands. The first case was that of John Goss, who was arraigned in the police court in the morning and which was remanded until today. Four other women simply complained and the case of the fifth woman's husband that the assaults must not be repeated. The sixth was a more serious one, and will be ventilated in court today. The man in this case is John Mathers, a master mariner, who resides at Spring Ridge with his wife and nine children. There had been differences between the couple, started, it is said, by some gossiping old woman who had told the husband that his wife was not all that she should be, and that a neighbor was not a fit companion for her. Fearing her husband, Mrs. Mathers went to the home of a neighbor, Mrs. Linds, where she thought she would be safe, but Mathers followed her there, and not only beat her, but also struck Mrs. Linds. She was rescued by Constable Blackstock, and booked on two charges of assault. He might also have been charged with resisting an officer, as he made a hard fight for his liberty, but found that the constable was a harder proposition than the women he had beaten. Mathers was before the court some four years ago for threatening to cut his wife's throat with a razor. A few days ago it is also said he broke his daughter's nose.

If you are tired taking the large old-fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A little liver stands everything. One a day. Try them.

A BIG PROGRAMME.

The Biograph and Reginald Band to Be at the Douglas Gardens.

The patrons of the Douglas summer gardens will have a double bill of fare provided for them on Wednesday and the remaining evenings of this week. Arrangements were made for the presentation of a splendid exhibition of moving pictures, by one of the best biographers on the coast. These pictures will be exceedingly interesting and of the highest quality. An excellent photograph of King Edward walking through the gardens of the palace. In addition to the above exhibition the Canadian artillery band will render a full concert programme, which will be published in tomorrow's paper.

If Victorians appreciate this splendid band, as much as the Seattle people do, the attendance on the concert will be even larger than it is for wherever the traveling representative of the Tourist association went during his visit to the latter city he was surprised to hear the enthusiastic praise of the band by the people who had attended the concert. Bandsman Walter V. North has won for himself a reputation in the Sound cities.

It is to be hoped that the people of Victoria will turn out en masse to show their appreciation of such an entertainment for the nominal price of 10 cents, and to help the representative in providing other suitable attractions for the balance of the season.

THE SKIN ON FIRE.

So dreadful are the sensations of burning, itching eczema that the skin is on fire. The stinging, biting bites of eczema are quenched by the use of Dr. Chase's Ointment. The ointment is a sure cure for a little uneasiness but cure is sure to result and the skin is healed without scar or blemish.

In another column will be found the semi-annual report of the B. C. Tourist Association. The report is of interest to every resident of the province who is interested in the growth and development of home industries.

Who'll Toll the Bell.—The question now arises as to who will toll the curfew bell. Ald. Williams at last evening's session of the civic solons asked why the "Toll of the Curfew" bell had not been tolled to that the provisions of the Curfew Law had been carried out. Ald. Worthington, who is one of that commission, wished to know who was to toll the bell, and which bell was to be used. Ald. Vincent suggested the firing of a cannon, and the Mayor pointed out that it would be necessary for Ald. Williams to secure an appropriation to pay some one to toll the bell and that the provisions of the by-law were carried out, the regulation would be null and void. Ald. Williams thought that the fire bell might be used, but the question of who'll toll the bell was not solved.

PAINE'S CECILY COMPOUND

NATURE'S SUMMER HEALTH GIVER

It Purifies the Blood and Multiplies the Number of Vital Red Corpuscles. Feeds the Nerves and Tissues and Gives True Physical Strength.

Weak nerves, exhausted tissue, poor thin blood, impaired digestion and sleepless nights, account for much of the present existing summer misery and suffering. Dear reader, if you are unfortunately numbered amongst the sickly and weak members of today, it is now time to awake to a true realization of your danger. The weakening and depressing hot weather will only add to your misery if you are careless and indifferent. There is absolute relief and a positive cure for you in Paine's Cecily Compound. This wonderful-working medicine is successfully conquering such troubles as yours every day. It is a fact vouched for by able physicians, thousands of testimonials that Paine's Cecily Compound makes new, pure blood, builds up the nervous system, regulates digestion, whets the appetite and gives vigor and strength to combat the discomforts of the heated term. Mrs. E. Wilcox, Cremona, Ont., says: "For years I have suffered from constant sick headache and nervousness; at times I have been so bad that I have been unable to sleep two hours at night for weeks. I have tried many medicines and doctored a great deal, but never received a hundredth part of the value from them that I obtained from Paine's Cecily Compound. After using three bottles I can sleep well, my headaches have ceased, and I feel healthier and fresher than I have done for years."

ne undoubted superiority of Burke's ★★ Old Irish Whiskey accounts for the world-wide popularity it has enjoyed for more than half a century.

For Sale by all leading Grocers and Wine Merchants.

JOHN HOPE & CO., Montreal Agents for Canada

To Build Steel Ships Here

Steel Barkentine of Thousand Tons and Wooden Schooner to Be Built

At Esquimalt Marine Railway—Queen City in From West Coast.

The shipyards of Victoria will be busy for some time to come, particularly that well-appointed yard of Messrs. Bullen at Esquimalt, for on the completion of the three wooden passenger steamers being built there for the C. P. N. company's Northern trade, two big carriers for the lumber or other carrying trade are to be built there. A steel barkentine—the best built in the world—of 1,000 tons, with a capacity of 1,000,000 feet of lumber, are to be built by the Esquimalt Marine Railway company for local company. The steel barkentine is a new type of ship, and Messrs. Bullen have themselves a large interest. The proposal to build lumber carriers at Esquimalt has been on the tapis for some time past, and arrangements have been slowly progressing to include the building of the new shipyard for shipbuilding in this city on a large scale are abundant is unquestioned, and the two vessels, the thousand-ton steel barkentine and wooden schooner, of the same capacity, will be the nucleus of a fleet of carriers to be built here. The steel will be imported, for although Vancouver Island has the ore in plenty, the finished material must still be shipped to the city, but the greater part of the other materials for the construction of the vessels is found close at hand. The wooden vessel will be built entirely of local material.

Within the last year the plant of the Esquimalt Marine Railway company has been considerably enlarged, new and modern machinery having been added until the yard is now equipped throughout with the most modern tools and machinery, and this first venture of the Victoria yard will without doubt be followed by the building of other vessels before it has been long off the stocks.

PYRENEES AT FRISCO.

Was Floated at Tahiti and Reaches the Golden Gate Safely.

The British four-masted ship Pyrenees arrived at San Francisco on Sunday morning from Tahiti. The Pyrenees left Puget Sound in October, 1900, with a grain cargo, bound for Leith, Scotland. Early in the morning of November the cargo was found to be afire. Capt. Bryce ordered steam in the donkey boiler and water was pumped continuously on the deck to keep her from opening. The cargo was found to be afire. Capt. Bryce ordered steam in the donkey boiler and water was pumped continuously on the deck to keep her from opening. The cargo was found to be afire. Capt. Bryce ordered steam in the donkey boiler and water was pumped continuously on the deck to keep her from opening.

SAILING SHIPS.

British Ship Albania Arrived From Manila on Sunday.

The British ship Albania, 1,285 tons, Brownell, master, arrived at William Head on Sunday in tow of the tug Sea Lion, 60 days from Manila, and as the Philippine island port is infected with cholera, she was fumigated at William Head quarantine station, and left for Victoria on Monday evening. She will probably receive a few orders today. The British ship Parana has completed loading at Chemainus and she is awaiting a crew. The Sea Lion is loaded with a cargo of coal, and a fleet of due to load there, and are chartered to follow them. Pully a score of vessels are fixed to load at Chemainus, some of the latter cargo not yet being secured. The Daily Red, now on the ways at Esquimalt, where Capt. Lewis, who recently arrived from San Francisco representing the owners, is having the her repairs completed. The Emma Louise is due from Lique, and the Orpheus about due from the same port. The latter is also coming from the Chemainus. The Autofagasta is expected next month from Zanzibar, and the Sea Lion left Tahiti on June 2. The Inland, a large lumber carrier, is en route from South America and other vessels have been secured, whose names have not been given.

EXCURSION FROM SEATTLE.

Dolphin of Alaska S. S. Company Brought Large Crowd From Sound.

Steamer Dolphin, of the Alaska Steamship company arrived in port from Seattle on Sunday afternoon with over 400 excursionists from the Sound City who spent an enjoyable time—the weather being delightful—and left for Seattle again at 7 p. m. The steamers Majestic and Rosalie also did a large excursion on Sunday and yesterday, when many excursionists returned from Seattle.

THREE STEAMERS DOWN.

Princess Louise, Nell and Boscowitz Returned From North on Sunday.

There were three steamers in port from the North on Sunday. The steamer Princess Louise, of the C. P. N. company, came in and the steamers Boscowitz and Nell, the latter having also called at Skidegate from which port she brought about 50 tons of dog fish oil. Among the passengers from the Princess Louise were A. Carlson and a party of telegraph linemen, who have completed a wire from Port Essington to the north end of the island. The trip of the Hazelton was sent to the Colonist on Saturday. H. K. Rogers, his brother M. K. Rogers and wife, Rev. Mr. Randall, Miss Leitch, J. W. Gerard and J. W. Toole, came from Hazelton and they have been examining the Bonanza mine, which has been secured by M. K. Rogers on behalf of the Vancouver Copper Company. Mr. H. W. Winchell arrived from Portland canal, where he has been doing some work on a property situated

some years ago by several Seattle people who went up on a prospecting tour, led by a man who abandoned them. Before returning they staked a mine discovered about six miles from the head of the canal. Mr. Stewart and Mr. V. McCoskie came from the Skeena, and Mrs. McCoskie made the round trip. News of the drowning of two Japanese on the Skeena as a result of the capsizing of a boat was brought by the Princess Louise. The fishermen were dragging for the bodies of the unfortunate near Claxton cannery. On Thursday last the steamer Mount Laramie, of Port Essington from the Skeena, and after completing her first trip on the Skeena she will connect with the Princess Louise on her up trip to take the excursionists who go north on the Hudson's Bay and C. P. N. excursion to Hazelton.

The steamer Nell reported that some prospectors had come into Skidegate shortly before she left there, but brought no news of any consequence, having heard of no finds of wreckage along the coast. The steamer brought a shipment of dog fish oil from Skidegate, which oil was placed in the hold of the ship. The steamer also brought a shipment of cedar, which is part of an order for 120,000 feet. She brought also 400 cases of Skeena river salmon. The Nell will sail north again on Friday night. The steamer Boscowitz brought about a dozen passengers, including a number of miners from Northern points. Mr. Hedge, who went north to report on the Copper company's property on Gribble Island, returned accompanied by his wife, Messrs. Charles Thompson, Williams and Amersun came from Hazelton; Messrs. Loker and Odegar came from Bella Bella; Messrs. Pearce and Anderson from the Skeena, and J. Martin from Hazelton. The Boscowitz brought down about 500 cases of salmon. She will sail north again tonight.

ORIENTAL LINERS.

Empress Sails and the Kinshu Maru Arrives From the Orient.

Two Oriental liners were in port yesterday. The Empress of India sailed from the Outer wharf for Yokohama and Kobe, Japan, on Monday morning. The Kinshu Maru arrived from Yokohama, two days ahead of her scheduled time. Two other Oriental liners will be in port today. The Empress of Japan will sail about noon with a cargo of about 2,000 tons of freight, including a number of cases of machinery, and much more. She had about 30 saloon and a number of Chinese stowaways. The Empress of India sailed from the Outer wharf for Yokohama and Kobe, Japan, on Monday morning. The Kinshu Maru arrived from Yokohama, two days ahead of her scheduled time. Two other Oriental liners will be in port today. The Empress of Japan will sail about noon with a cargo of about 2,000 tons of freight, including a number of cases of machinery, and much more. She had about 30 saloon and a number of Chinese stowaways.

SAN FRANCISCO LINERS.

Steamer City of Puebla arrived from San Francisco early yesterday morning, tying up at the Outer wharf soon after midnight. The ship was reported to be a general freight for Victoria merchants, and of her 133 passengers, 20 departed here. Head winds were encountered on the up trip, the steamer Unatilla sailed for San Francisco, and the Northern Pacific steamer Olympia will arrive from the Orient. The Empress of India had a cargo of about 2,000 tons of freight, including a number of cases of machinery, and much more. She had about 30 saloon and a number of Chinese stowaways. The Empress of India sailed from the Outer wharf for Yokohama and Kobe, Japan, on Monday morning. The Kinshu Maru arrived from Yokohama, two days ahead of her scheduled time. Two other Oriental liners will be in port today. The Empress of Japan will sail about noon with a cargo of about 2,000 tons of freight, including a number of cases of machinery, and much more. She had about 30 saloon and a number of Chinese stowaways.

FROM WEST COAST.

The steamer Queen City brings news that the sealing schooners, which all safely away from the West Coast. The passengers who arrived by the Queen City were: C. Ewart, W. Pooler, L. Thompson, of the Pacific Steamer Company, who has been looking at some iron properties near Nootka; Mrs. Trich, Colley, A. G. Murphy, F. V. Hobbs, W. Burke, R. Kelly, F. Lormer, G. D. Wetzel, A. J. Smith, G. E. Fraser, J. M. Wilson, R. M. Thompson, J. Gabbett, F. Huber, Father Seve, Wm. Mylton, Gwin, Clarke, Gilchrist, Grickson, and 24 miners from Quatsino.

MARINE NOTES.

Steamer Princess Louise will sail for Nootka and west ports on Thursday evening. Capt. Zeal, of the British ship Eulomene, which was here about a year ago, arrived at San Francisco a few days ago, and is also coming from the Chemainus. He has many friends here, and is in years, and the doctors fear that his chances of recovery are slight. Steamer Queen City will sail for Abouset and west ports on Friday evening. Steamer Amur did not return from port. She sailed for Skagway on Sunday night, taking a small cargo and a large complement of passengers. The Amur sailed from Port Essington on about 8 o'clock, and after loading some fruit and perishable freight from the steamer City of Puebla at the Outer Wharf, left for Lynn canal early yesterday morning. Steamer Queen City, which arrived yesterday afternoon from the West Coast, reported sighting the American steamer Edith of Tacoma fishing in the

ADMISSION 10c.
CHILDREN HALF-PRICE.

vicinity of San Jose Bay off the north-western coast of the Vancouver Island Strait. The Edith has heretofore been engaged in fishing in Queen Charlotte Sound and Heate Strait. Steamer Nellia Thurston, which has such a delayed trip to Queen Charlotte Sound, started from Nanaimo on Sunday on her second cruise. She sailed south intending to go outside the Vancouver Island Coast instead of passing north through Seymour Narrows. The crew is practically the same as went on her last cruise. The British bark Ross, which sailed from Hastings on March 18 for Geraldton with a cargo of lumber, arrived at Adelaide a week ago in distress. (She put into the Victoria port leaking badly, water being taken at the rate of 18 inches an hour. The water was, however, being kept under by the vessel's pumps. Steamer Cottage City sailed for Alaska ports from the Outer wharf on Sunday night with 110 passengers, and a good cargo, 54 tons of freight being taken from here. Six passengers embarked here.

WEAK BABIES MADE STRONG

Medical men emphatically declare that Lactated Food is the best nourishment for weak and sickly babies in the hot weather. It is the most easily digested, the purest and most nutritious infant food made. Babies regularly fed on Lactated Food are happy, bright, vigorous and strong. If your little one is not thriving, try Lactated Food.

A PREJUDICED SOCIALIST.

A correspondent who signs himself "Socialist" sends a clipping from a Socialist newspaper, and asks us whether the opinions voiced in it are within the truth. They are not within the truth. The general mass of the people of Great Britain supported the war. Pro-Britishers were conspicuously rare among the working classes if we must make use of an imperfectly descriptive term. We should say that in Great Britain capital was not nearly so irresponsibly powerful as in the United States. But that is probably an added irritation to many Socialists, because it is accompanied by a strong sentiment in favor of a healthy individualism, unrestricted except when it interferes with the general good. However, we may remind our correspondent that there never was a political theorist who did not maintain that the People (always with a big P.) would one and all adopt his views, if they were only free to do so. The editor of the "Appeal to Reason" (what a name under which to cloak an outpouring of prejudice) has invented a Great Britain out of his own fancy in order to abuse it, just as the ancient doctors of divinity used to construct heresies in order to annihilate them. In all probability our correspondent has hit the nail on the head in his evident suspicion that the desire to abuse is the root of the invention.

THE ELMORE PROCESS.

It would be a remarkable thing if the Elmore process of oil concentration did for British Columbia what the cyanide process did for the Rand. In South Africa that percentage of the gold which could not be caught on the plates had to be saved, or else very many of the mines could not have been made to pay, and all of the mines would have been obliged to restrict their workings to the richer spots. The development of the cyanide process solved the problem, and made the Rand the greatest goldfield in the world. In British Columbia the problem is entirely different. In the process of smelting the amount of gold lost is very small. It is practically all saved. But in British Columbia there is an enormous tonnage of mineralized rock which in its crude form will not stand the cost of smelting. The heavy sulphide ore which contains high values is cheaper to smelt than this low grade silicious ore. A small percentage of the latter can be mixed in the furnace charge but as it exists in the ratio of probably ten to one, this does not advance its utilization much. It is this ore which the Elmore process attacks. The affinity between metallic substances and oil is well known. If only a very little oil is poured into the stream of a water concentrator, it will counteract the principle of gravity in saving the richer particles, and float them triumphantly past every known device for intercepting them. The Elmore process uses this affinity between oil and metal instead of gravity to save the metal. Experimentally it has been proved successful. It remains to be seen to what extent it is capable of practical

application. If successful the limits of its application to our low grade ores are not easily set. If we take the Le Roi mine alone, there we have a mine with an immense zone of mineralized rock all containing a certain amount of gold. The attempt made to organize the mining and smelting facilities of the property to admit of all this rock being mined and treated does not appear to have been successful, and the old process of selection has been fallen back upon. It is needless to say that this entails a more rapid exhaustion of the mine, an increased cost per ton for mining, and a largely diminished gross output. If, however, by the introduction of this new idea in concentration, the low grade ore can be handled at a profit, the whole ore body becomes again a commercial asset capable of yielding very large returns. If this is the case with regard to one of our largest and richest mines, what remarkable developments may be looked for in mines in which pay ore under present conditions has not been developed at all, but in which large deposits of low grade ore exist. Those interested in our greatest industry will watch very closely the introduction of this new process of concentration. It may make a very vast difference in the mining outlook for this province.

RECIPROCITY.

The Chicago Tribune discusses this question. It says:

Reciprocity with Cuba is the burning question of the moment. Reciprocity with Canada is a question which will come to the front soon and stay there until it is disposed of. There will be bitter opposition to it, largely petty and selfish in its nature, to free trade relations with Canada, but such relations will be of great value to the United States. Next to Great Britain and Germany the Dominion is the largest purchaser of American products. It will be a still larger purchaser in the event of reciprocity.

This would be excellent if the Tribune had not previously explained what it means by Canadian reciprocity. In its own words it is "the desire of the milling interests of Minneapolis and St. Paul to secure reciprocity with Canada so the Canadian wheat lands may supply grain to their mills. At present none of the Canadian wheat is made into flour in the United States." This is the American view of reciprocity. Those who favor it expect Canada to give concessions to the United States for the inestimable privilege of having Canadian raw material made tributary to American industry. That Canadians should have any objections never appears to enter their heads. But the day is over for any such bargain on the part of Canada. There was a time when such an arrangement might have been looked upon with favor as quickening the development of Canada. But not now.

"He who wills not while he may,"

When he wills he will have nay."

might be appropriately applied to the United States in this connection. The reciprocity sentiment is growing in the United States, it is withering in Canada. We have been bullied into complete commercial independence, and finding independence to our taste and advantage, we are never likely to forego it. Even the political party which took up this false cry was obliged to drop it. If it takes it up again, which is not likely, it will make itself as unpopular in Canada as it ever has been in its history, which is putting things very strongly. The farmers of Canada are not burning to let a ring of millers in a foreign country set the price on their wheat, and then sell it to the European consumer at their own price also. It cannot be very many years before Canada, not the United States controls the export wheat market, not through having the largest production, but through having the largest exportable surplus. With that consumption in view we are not taking any Greek gifts of reciprocity.

We learn from an American paper that "the later reports of King Edward's condition are ominous. . . . Court circles are also said to be gloomy, and the Queen keeps in close retirement, while the Prince of Wales gives way to tears whenever he sees his father." The King-Edward-killing correspondent is plucking up heart again.

No young man who ever lived has been more talked of, admired, and envied than Mr. Schwab, of the Steel Corporation. A few days ago he fainted. After working at him for some time, the doctors pronounced him out of danger. Overwork and mental anxiety were the direct causes of his trouble. Surely it is not good enough, even for the sake of being president of the greatest corporation on earth.

We have received the Semi-Annual Report of the British Columbia Permanent Loan & Savings Company. The report shows the company to be doing a large and increasing business, and to be in a sound financial position. The cash receipts from mortgagors are reported to be most satisfactory, and according to valuation the company has now security of \$2.08 for each dollar loaned. The fact that this company has its headquarters in the province should enable it to carry on its business on a sound conservative basis, besides ministering to the accumulation of capital among that class of the community upon whose savings the prosperity of every country depends.

President Roosevelt's words at Harvard are worth noting. Others besides Mr. Roosevelt, have noticed the peculiar attitude of Americans towards their great men; few have expressed the feeling it inspires more forcibly: "When in England they get a man to do what Lord Cromer did in Egypt; when a man returns as Lord Kitchener will return from South Africa, they give him a peerage, and a great sum of money. He receives large and tangible rewards, but our Crooners, our men of that stamp, come back to the country, and if they are fortunate they go back to private life with the privilege of taking up what they can find of the strings left loose when they sundered their old connections, and if they are unfortunate they are accused of malversation in office—(laughter)—not an accusation that hurts them, but an accusation that brands with infamy every man who makes it, and that reflects but ill on the country in which it is made."

TO INCREASE YOUR WEIGHT.

If you are thin, weak and emaciated and want to increase your flesh and weight, you should try Dr. Cassel's Nerve Food. You can feel it doing you good from day to day, as it strikes at the root of trouble and creates a rich blood. You can prove that it builds up new tissue and adds flesh if you weigh yourself each week while using it.

Cocaine is extensively used as an intoxicant in India.

SEMI-ANNUAL REPORT

—OF—

THE BRITISH COLUMBIA PER-

MANENT LOAN AND SAVINGS CO.

OF VANCOUVER.

INCORPORATED.

The half-year just closed has been marked by a period of remarkable success, the assets having increased from \$400,888.76, to \$617,159.81, making an increase of \$216,271.13, which is \$68,825.71 greater than the increase made during the same time last year. The same rate of increase will bring the assets up to ONE MILLION DOLLARS in less than two years from the present time.

DIVIDENDS.

A dividend at the rate of EIGHT PER CENT per annum has been declared on Class "A" Permanent Stock for the half-year ending June 30th, 1902. The usual dividends of SIX, SEVEN and EIGHT per cent have been credited to Class "B" Full Paid Stock, and SEVEN per cent on the amount prepaid on Class "D" Stock. We have also credited dividends at the rate of TWELVE per cent per annum to the Loan Fund of Class "C" Accumulative Stock, issued prior to September 30th, 1898, and ELEVEN per cent per annum on Class "C" stock issued between September 30th, 1898, and December 31st, 1901.

OUR NEW PLAN.

On Class "C" Accumulative Stock commenced with the first of the present year. Every monthly payment made on this stock, except the first, is placed in the Loan Fund, no part of the monthly payments being taken for expenses. A dividend at the rate of SEVEN per cent per annum has been credited to this Stock.

PERMANENT STOCK.

The accompanying financial statement shows that the issue of one thousand shares of Permanent Stock has been sold and fully paid up. This gives the Company a solid backing of OVER HUNDRED THOUSAND DOLLARS Permanent Non-withdrawal Capital. Several shares of this Stock have recently changed hands at \$130 per share.

MORTGAGES.

The usual care has been taken in the selection of loans and we are pleased to say that the cash receipts from mortgagors have been most satisfactory. Two hundred and three loans have been made during the half-year, making a total of six hundred and eighty-five loans now on the Books of the Company, averaging \$82.34 each. The total value of the property now under mortgage to the Company is \$1,221,134.00, giving the Company security to the extent of \$2.08 for every dollar loaned. Our loaning plan has become so popular that we have found it impossible to supply the demand for loans, and therefore, we have found it necessary to refuse a number of good applications. At the present time we have sixty loans granted and under way, amounting to \$78,330.00, in addition to the loans shown in our statement.

SURPLUS.

After crediting dividends as explained above, the sum of \$3,946.38 remains as unappropriated profits.

WITHDRAWALS.

During the half-year the sum of \$26,943.62 has been paid to withdrawing members.

GOVERNMENT INSPECTOR'S REPORT.

Vancouver, Canada, July 14th, 1902.

I hereby certify that I have examined the balance sheet and dividends of The British Columbia Permanent Loan and Savings Company, as given herewith, and find the same in accordance with the By-Laws of the Company and the Laws of the Province. I have also examined the statements submitted to me, upon which are based the profits of the half-year, and upon which Dividend No. 8 is declared, and I approve of the principle upon which such dividend has been computed, and, consequently, sanction the payment of the same in accordance with Sec. 62, Chap. 22, Vic. 60.

Yours truly,

C. GARDINER JOHNSON,

Inspector Investment and Loan Societies.

STATEMENT OF ASSETS and LIABILITIES.

LOAN FUND AS AT JUNE 30th, 1902.

THOS. T. LANGLOIS,

President.

GEO. J. TELFER,

Sec'y-Treas.

Vancouver, B. C., July 14th, 1902.

We have audited the accounts of The British Columbia Permanent Loan and Savings Company, from 31st December, 1901, to 30th June, 1902, and find the transactions of that period accurately recorded in the Books of the Company; the receipts accounted for; the payments out of Loan Fund duly authorized; and receipts for all payments produced. We have verified the Balances in the Bank and the Cash on Hand at 30th June, 1902.

The Statement of Receipts and Expenditures, and also the Statement of Assets and Liabilities are properly drawn up, so as to exhibit a correct view of the affairs of the Company.

Attracting Large Crowds

Tourist Association Arranging For Excursion From Sound For August 8.

Commendation of the Work of Organization by Tacoma Press.

The traveling representative of the Tourist association, Mr. H. Cuthbert, returned home Sunday after a flying visit to the cities on the Sound. At Whatcom and Everett the proposition to have excursions to this city on the occasion of the coronation was taken up, the inhabitants of those cities evincing great interest in the idea and promising to support with liberality any steamer which could be secured to run excursions from those places.

On his return to Seattle, which Mr. Cuthbert visited first after leaving this city, the question of transportation from the former places was taken up, with the owning companies, and in all probability special cheap trips will be run on August 8.

When starting on his just completed tour, Mr. Cuthbert took with him some 10,000 illustrated folders descriptive of the beauty spots of this city, and of the attractions it offers to tourists.

These folders he arranged to have distributed in Seattle on all the different trains and boats reaching that city. In addition to them, 75 of the cabinets containing the booklets, etc., of the association were also taken to the Sound metropolis, and one has been placed in each of the leading hotels and other public buildings of that city.

The unusually large passenger lists dated credited to the steamers plying between the mainland and Victoria are ample proof if such were wanted of the good that the Tourist association is doing for this city, and Mr. Cuthbert states that large crowds will take advantage of the cheap \$1.50 rate offered by the Sound steamers for visitors to this city on the occasion of the coronation.

Another fact that bears eloquent testimony to the good work now being done is that according to a C. P. R. official there are now upwards of one hundred company tickets in passing through that office. This goes to show that not only is Victoria attracting a goodly share of the sight-seers and pleasure-travelers from the South of the line, but fellow Canadians are to an appreciable degree beginning to understand and appreciate the fact that Victoria as a resort has attractions to offer them that cannot be found in any other Dominion.

In Saturday's Tacoma Ledger, there appears the following account of the Victoria Tourist association:

"The work that is being done by the Tourist association, and the part it is playing in the greatest possible benefit to the whole of the Northern Pacific Coast. Victoria being the most western city, it is evident that all tourists visiting her must pass through a large territory on the coast of our country that they otherwise would not."

"This up-to-date and energetic body, whose destinies are guided by Mayor Hayward, one of the most progressive public men in the West, and nine prominent and successful business men, has accomplished this during the past year, and is now making the attractions of their beautiful and delightful city known abroad and also to draw attention to the Puget Sound country."

"The traveling secretary of the association, Herbert Cuthbert, to whose able and telling work much of this success is due, was in the city this week endeavoring to interest the visitors now here in Victoria."

"Speaking of direct results, Mr. Cuthbert said that his California trip had been followed so far by much better results than could have been anticipated. At least 20 per cent. of the tourists lately registered in the rooms of the association were from California—Redlands, Riverside, Los Angeles, Pasadena, Sacramento and San Francisco. All these people were delighted with everything they saw, and will be living advertisements of this, to them, Northern country. From his Montana and Eastern Washington trip, Mr. Cuthbert has returned with a large number of tourists, though he does not expect the best results from this section until the end of this month."

"The Tourist association is also doing good work at home. New methods of reaching the outside places of interest have been inaugurated and some magnificent summer gardens have been opened to the public. The gardens of the Canadian artillery, Fifth Regiment, plays every evening."

"Tacoma will benefit largely through the development of this tourist business, as the train, the steamer, and the few days in this city, which possesses no small share of attractions in which tourists delight. It is to be hoped that Victoria, so eminently fitted to become a fashionable health and pleasure resort, will continue to draw large numbers this way for the mutual benefit of all."

WAS SHE A SMUGGLER?

Schooner Anchors Off Gordon Head and Communicates With the Shore.

Sunday afternoon a large-sized schooner anchored in the channel off Gordon Head, some distance towards San Juan Island, and laid there all day. During the night a light was observed to be twinkling on board the schooner, evidently signaling to some anchor on the beach, and after a few minutes there was an answer from Gordon Head, and shortly after a boat with a light was seen rowing across to the schooner.

The schooner was a trim and ship-shape looking craft, with tall spars, and masts topped on both masts. The hull was painted black. It is well known that quite a little smuggling is constantly going on with the other side, and it is quite probable that the vessel referred to may have had some connection with this illegal traffic. It was remarked as a strange proceeding for a vessel of the size of the schooner to anchor on the fair way channel with a fair breeze blowing.

Another method of communication with this port other than that apparent and recognized by the customs department, is to anchor in one of the coves on the water front of the B. C. Market company's property, near Cadboro bay, and send a small boat ashore with the messenger who walks to Oak Bay and takes the street car into the city. It is possible that the schooner mentioned above was the one which left Nanaimo lately for the Island grounds by way of the Southern passage.

First of Season.—The Brackman-Ker company have received the first new hay of the season. The hay is of extra fine quality, and from all reports the season's crop promises to be particularly good.

Laying the Blocks.—Workmen yesterday laid the first blocks for the Government street new bridge, commencing at the corner of Yates street.

The Distress Was Illegal Please Go Away And Let Me Sleep.

Judgment of Mr. Justice Drake in Moody vs. Ahiers, County Court Case.

The Plaintiff Awarded Damages for Illegal Distress.

On Saturday Mr. Justice Drake handed down his judgment in the case of Moody vs. Ahiers, an action brought in the County court by C. C. Moody for illegal distress. His Lordship awarded Moody \$300 damages. Mr. J. P. Wallis, who appeared for Ahiers has given notice of his intention to appeal on the ground that there are several inaccuracies in the judgment.

Moody was a yearly tenant of a lot on Glenison road, belonging to Ahiers, at \$24 per annum, he agreeing to get a water supply well or otherwise, the cost of which was to be a set off against the rent. Moody paid \$5 in cash, \$15 to the city for water, and spent \$10 in erecting a well, but encountered rock. These amounts therefore paid the rent for \$188, and \$6 on the rent of the following year, so that when the next rent fell due in February, 1900, Moody would have to pay \$18. The defendant gave plaintiff a variety of notices to quit, treating him as a monthly tenant, and on the first of June, 1900, notified him that if he did not vacate the premises by the 1st of July he would be charged a monthly rental of \$8. On June 22 a distress was put in to recover eleven months rent at \$8. His Lordship in his judgment said that the defendant and his assistant, while in possession acted in a very improper manner, and while in a state of drunkenness injured and destroyed the plaintiff's goods, and did a considerable amount of damage to articles necessary for him in his trade as a watchmaker, and eventually removed his tools in trade.

Continuing the judgment made for rent in arrears under the demise. It was made under an alleged claim for overholding, and was void. Under the original demise no rent was due, and would not have become due until February 1, 1900. The law is that if some rent is due the taking and selling of more than was due is not actionable unless it appears that the goods sold were excessive with reference to the amount of actual arrears, but no rent was due here. The defendant took all the furniture and other effects which could be found. The plaintiff alleges they were worth \$500, the defendant says they were only worth \$45, and produces hardware, the auctioneer to prove this value, the goods having been sold by him for that amount. No appraisal was made, and the amount realized is not equivalent to an appraisal. The truth as to the value lies between these two amounts. The defendants were trespassers from the commencement, I have to ascertain what damages the plaintiff is entitled to. I find from the evidence that the value of the goods taken was greatly in excess of the amount realized, and I find that the plaintiff has sustained damages to the amount of \$200, for which I give judgment with costs."

IN CHAMBERS.

In Chambers yesterday Mr. Justice Drake presided, and heard the following applications:

Clark & Pearson vs. Orr—W. H. Langley, for plaintiffs, obtained judgment under order XIV., with costs on County court scale.

Orr & Morris vs. Bennett Lake Navigation company—Leave was granted to proceed with the taking of accounts. J. I. Lawson, jr., for plaintiffs, F. Peters, C. C. contra.

The Dauphin, deceased—W. E. Oliver obtained an order for letters of administration.

The Full court will sit today to deliver judgments and to hear argument of the appeal in Star Mining company vs. Byron N. White company.

Basket Picnic.—The basket picnic of St. James' Sunday school starts for Sidney from the Market Hall station at 10.30 and 2 o'clock on Wednesday, returning at 4 o'clock. Tickets at half-price can be obtained at Hibben's book store, from any of the teachers and at the station, before the morning train leaves. This gives a good day at the lovely grove at Sidney, for the low price of 25 cents.

THE DOUGLAS GARDENS.

Continued Popularity of Evening Concerts at New Pleasure Grounds.

All last week the attendance at the Douglas gardens was particularly good, and at the close of each evening's performance the crowds were dismissed thoroughly satisfied and delighted with the amusement afforded. It is probable that in the very short time a series of special attractions will be put on at the gardens, arrangements to that end being now on foot.

The programme for tonight's concert is as follows:

- PART I.
1. March—Nihilism..... Wagner
 2. Overture—Orpheus and Eurydice..... Offenbach
 3. Rubenstein's Melody in F..... Arr. Bennett
 4. Waltzes—Ma Belle Adore..... Roy
 5. Two Steps—A Western Grocer..... Berliner
- Intermission of Ten Minutes.
- PART II.
6. Selection from Iolanthe..... Sullivan
 7. Patrol—American..... Meacham
 8. Char. Piece—Simplicity..... Moss
 9. Popular Selection—Topliners..... Mackie
 10. Cake Walk—The Bos'n Rag..... Stone
- Good Save the King.

FILE AT SIDNEY.

Prompt Action of Messrs. Wright and White Saved Bazar Park From Destruction.

While the three parties of picnicers were enjoying themselves to their hearts' content in the lovely grove of Bazar park, on Saturday afternoon, a small flame arose, which was fanned by the breeze, and was spreading rapidly. Rev. T. H. Wright noticed the huge volume of smoke, and thinking that this was something more than a fire for heating the water for the pleasure grounds, went over to the scene, and ran to the office, when Mr. White started at once, and after a vigorous fight of about an hour's duration, succeeded in conquering the flames. Mr. White says that had the fire been allowed to burn a little longer, the pavilion and those magnificent shade trees would have gone up in smoke. Messrs. White and Wright deserve hearty congratulations, as it would have been a disaster which would have been felt by Victoria, as many have spent pleasant hours on this ideal spot.

A CAMP NECESSITY.

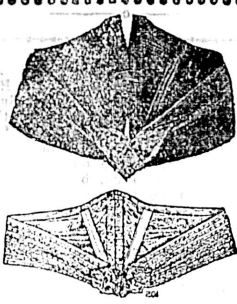

Clark's delicious Pork and Beans, with Chili or Tomato Sauce, are almost a camp necessity.

You! Eyes Hurt!

Work On The Copper Canyon

Tunnel Now In 156 Feet—New Hoisting and Compressor Plant.

William Lewis, The Manager, Gives an Outline of His Plans.

William Lewis, superintendent of the Mount Sicker and Brenton Mines, Limited, arrived yesterday from Mount Sicker, where he has been supervising operations on the Copper Canyon claim for the past three months. Mr. Lewis is an experienced mining captain, and on his first visit to the Copper Canyon expressed a most favorable opinion of its value. This opinion has been strengthened as the work of development has proceeded, and now he says he is firmly convinced that the Copper Canyon will eventually prove as important a mine as either the Tyee or the Lenora.

The work accomplished so far on the Copper Canyon consists of a tunnel driven 156 feet into the mountain from the shore of the Chemainus river, which shows ore along its whole length averaging from 2 to 4 feet in thickness. This tunnel will be continued for 20 feet more and then an upraise will be made to the surface, 115 feet. The upraise will be a double compartment working shaft, and when a station has been established at the end of the tunnel, the work will be continued downward for 500 feet. It is also proposed to put in a crosscut at the point where the shaft bisects the tunnel. These works, which will give exceptionally favorable facilities for handling the ore and greatly reduce the cost of mining.

Mr. Lewis came to the city yesterday to inspect a lot of machinery which the company ordered from the Libby Iron Works of this city. This consists in part of a 20 horse power hoisting engine of improved pattern, and a 25 horse power boiler, which are ready for shipment, and will be installed at the mine as soon as the government bridge over the Chemainus river has been strengthened sufficiently to bear their weight in crossing. The plant also includes a two-drill compressor which, when installed, will greatly facilitate the work.

There is now on the dump at the mouth of the canyon, about 100 tons of ore, which will average \$22.50, and which if smelted would go a good way in paying the expenses of development up to date, but Mr. Lewis does not have in "rushing things." He wishes to place the mine on a permanent producing basis before beginning shipments. When the mine is ready to ship, the Mount Sicker Railway Company will run in a spur to the bank of the Chemainus river, so that the ore will be very easily handled. Mr. Lewis' policy is to follow the example of the Tyee, which has never shipped more than a few tons of ore, and has now, blocked out underground and on the dump, 100,000 tons—enough to supply a 100-ton smelter for over three years. He says, if everything turns out as he expects, the mine will be a steady shipper within a year. Shipments could be made much sooner, but he is opposed to the principle of speculative shipping, holding that more profit will be realized by holding the ore until it is worth 140 every working day in the year.

About 150 feet south of the main tunnel another vein, showing two feet on the surface, has been stripped for 26 feet, disclosing good ore the whole length. It is the intention to drive into this vein from the main shaft, which will permit the ore to be handled economically.

The company has let a contract to Mr. Andrews, of Mount Sicker, for the erection of a new boarding house, 10x50, for the accommodation of the miners. A small creek emptying into the Chemainus river, has been dammed to form a reservoir, which gives an ample supply of excellent water for the camp, and also works on air siphon which ventilates the tunnel.

At present there are 12 miners employed in three shifts, and this force will be considerably increased when the new machinery is installed.

Mr. Lewis intends to put a couple of miners to work soon on the Susan claim, where there is an iron cap 70 feet wide, covering a large body of rich copper ore. A tunnel will be driven on the Susan to test this ore body, which is very promising from surface indications.

THE KEY CITY.

Mr. Lewis informs the Colonist that an important strike was made yesterday (Monday) on the Key City claim, adjoining the Copper Canyon and Tyee, Capt. Watson, who has been sinking a shaft on the property, and has 20 miners employed, came upon a fine body of ore at the bottom of the shaft, 120 feet below the surface. The extent of the ore is not known as yet, but the strike has put everyone connected with the work in the very best humor.

THE COPPER KING.

Mr. Lewis also confirms the news of a rich strike on the Copper King claim, one of the claims owned by the Coronation Mining Company, of which a further account is given in a special despatch to the Colonist from Nanaimo.

Mr. Lewis returns to the mine this morning to continue work on the tunnel.

SPRINK ON COPPER KING.

Six Feet of Rich Ore Found in Shaft 62 Feet From Surface.

Nanaimo, B. C., July 28.—(Special.)—Secretary, Manager, of the Coronation Mining Co., who has returned from Mount Sicker camp, is delighted with the prospects on their Copper King claim. At 62 feet deep in the new shaft they struck a rich body of ore six feet in width, and improving as they go down. It is expected to prove very rich eventually.

They are increasing the working force at the mine in consequence, and have put

A.B.C. BOHEMIAN
Best and Purest Beer.
Bottled only at the Brewery.
THE AMERICAN BREWING CO.,
St. Louis, Mo.

up an air fan at the new shaft. The reports also that a rich lead has been found on the Copper Canyon mine, only one hundred and forty feet south of the main lead.

Passengers on Queen City from Clayquot, tell of a rich strike which has been made at Kennedy lake, by Mr. Spittel. The news created much excitement in the neighborhood of Clayquot. Assays made of ore taken from the property went as high as \$144 in gold, and 53 cents in silver to the ton. A number of claims have been staked in the vicinity.

Quatsino

Copper Ore

First Shipment from the West Coast to New Smelter at Crofton.

The June Group, St. Olaf's Lake, Bonded to a Tacoma Company.

Among the passengers by the Queen City yesterday were Messrs. Clarke and Gwin, of the Yreka Copper Mining company, who returned from visiting the company's property on Quatsino Sound, known as the Comstock group. They came down with a shipment of 120 high grade copper ore, which was forwarded to the Crofton smelter yesterday afternoon, where it will be treated. This is the first consignment of ore delivered at Crofton by water, although the smelter ore bins are full of ore from Mount Sicker which was delivered by the Mount Sicker railway.

The sampling works at Crofton are now in full operation, and the results from the Comstock ore will be looked for with interest as it is expected to give good values. The Yreka company has decided not to ship any more ore from the Comstock until their aerial tramway is completed. The machinery is now being turned out at Nelson, and will be installed by Mr. Riber, who is now building the aerial tramway from the Tyee Mining company between Mount Sicker and Sonoma.

Messrs. Clarke and Gwin have bonded the June group of Copper claims, situated on St. Olaf's lake, four miles from Rupert's arm, Quatsino sound, to the Copper Mountain Mining & Development company of Tacoma. The new owners will proceed to develop the property on a large scale, and in the near future a crosscut recently made on one of the claims disclosed 18 feet of solid high-grade copper ore, without the wall being of the several favorable indications which induced the Tacoma people to secure an option on the property.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price.

Port Townsend, July 28.—Harry De Windt, the Siberian traveler, who recently completed a remarkable journey overland throughout Northern Siberia, and across the Behring Sea, arrived here today on the steamship Topeka from Skagway, accompanied by Viscount de Chancamp Bellegarde, George Harding, and Stephen Rastouffey. He is on his way to New York.

An Evening Ball Game

Victorias and Chemawa to Play at the Oak Bay Grounds This Evening.

J. B. A. Crew Will Return to the City By the Majestic This Afternoon.

The Chemawa Indians and the Victorias returned to the city this evening at 6:30 at Oak Bay Park. Although an evening game is somewhat experimental here, it is expected that quite a large crowd will be present to see the struggle. The visitors have a good team, and are confident of redeeming themselves for the defeat administered by the locals last Saturday by turning the tables in today's game.

The time and batting order of the teams will be as follows: Chemawa—La Flamboise, 3b.; Davis, 2b.; Young, 1b.; Raub, s.; Graham, r.f.; Fenbo, c.; Neufus, l.f.; Morris, p.; Saunders, l.f. Victorias—McConnell, s.; Rither, 1b.; Schwengers, c.; Potts, c.f.; Burnes, 2b.; Haynes, p.; Goward, r.f.; Harrison, 3b.; Goward, l.f. (Geo. Smith umpire).

The game will be called promptly at 6:30, and should easily be over by 8 o'clock. The tramway company will have lots of special cars on the run to handle the crowd.

RETURN TODAY.

J. B. A. Crew Will Return by the Majestic This Afternoon.

The Victorias J. B. A. crew, winners of the junior and senior fours in the N. P. A. O. regatta, will return to the city by the steamer Majestic this afternoon. They will be met at the boat by the members of the club, accompanied by the Fifth Regiment band. No doubt there will be a monster crowd at the wharf to welcome the boys home.

Earthquakes And Tempests

Severe Shocks In Lower California—Much Alarm—No Lives Lost.

Terrific Electric Storm Deluges New York—Two Men Were Killed.

Lompere, Cal., July 28.—Lompere valley experienced an earthquake shock at 10:55 last night. At that time a violent shock was felt which lasted fully 30 seconds and was so severe that dishes, clocks, house plants and other articles were thrown from shelves. The people were stricken with terror and ran from their houses some fearing to return. Another heavy shock was felt at 5 a.m. and one at 11 a.m. today. A large water tank was knocked over and the earth was cracked at many different places, and the San Joaquin river bed was slightly changed at places.

Santa Barbara, Cal., July 28.—Meagre advices received from Los Anos, 45 miles north of this place, report that an unusually severe shock occurred last night, doing damage to the property of the Western Union Telegraph company estimated at from \$12,000 to \$15,000.

NEBRASKA AND IOWA.

Omaha, Neb., July 28.—An earthquake shock, which was general over portions of Nebraska, Iowa and South Dakota, occurred shortly after noon today. The disturbances were felt at a large number of towns in the three states and lasted from 10 to 15 seconds. No damage has been reported thus far, although the shock was sufficient to rattle the dishes and to affect bell towers in some places.

STORM AT NEW YORK.

New York, July 28.—A tremendous downpour of rain, accompanied by vivid lightning and sonorous thunder, deluged the city and vicinity tonight. Lightning struck in many places, and Dennis Cass, 62 years old, who lived on 107th street, was killed by a bolt. The greatest monetary loss will fall on the contractors of the Rapid Transit tunnel, the ditch being flooded to the depth of four feet.

While services were being conducted in the Church of St. Paul the Apostle, on 6th street, one of the four huge crosses, which are at the corners of the tower, was wrecked by a bolt of lightning. Streaks of light filled the church and the congregation was filled with fear. The stone cross was hurled across the street. The worshippers took to the sidewalks, but no further injury was done.

The Paulist Fathers' church, nearby, was also struck and flag poles and cornices all over the upper part of Manhattan were hit.

The flood of water which poured into the main sewer on 9th street forced the sewer gas out of the manholes. One of these holes received a flash of lightning which ignited the gas. The street for over a hundred feet was torn up by the explosion which followed, and the Central tracks, nearby, were bent and twisted so that traffic was stopped for several hours.

Hoboken and Montclair, N. J., as well as other places in the northeastern part of that state, suffered severely from the storm. A laborer in seeking shelter from the storm at Montclair, while crossing the tracks, was caught by a train and killed.

After deluging the upper portion of Manhattan and soaking the Bronx, the storm passed eastward along Long Island sound.

By far

the most agreeable and refreshing water, alone or mixed with wine, etc. Its moderate alkalinity admirably counteracts the effects of wine and spirits.

MONTSERRAT

LIME FRUIT JUICE

Mixed with water or soda will quench your thirst, cool your blood and make you comfortable on the hottest summer day. It is good for you.

'WEAK, NERVOUS PEOPLE.

Any man or woman who is nervous, whose brain and body are weak, who sleeps badly, awakes more tired than when they went to bed, who is easily discouraged, inclined to brood over imaginary troubles, who has lost ambition and energy to tackle hard problems, lacks the animal electricity which the Dr. McLaughlin Electric Belt Supplies.

Give me a man or woman run down from hard work or worry, or any cause which has sapped their vitality, let them follow my advice for three months and I will cure them.

The whole force of vitality in your body is dependent upon your animal electricity. When you lose that by draining the system in any manner my Belt will replace it, and will cure you.

Ennis Chambers, Massey Station, Ont., writes:—It is two months since I received your Belt, and it is all right and more than I expected it to be. It has done me a world of good. The nervousness is all gone and so is the tired feeling. I could not have done the work I am doing this spring if it was not for your Belt.

Letters like that tell a story which means a great deal to a sufferer. They are a beacon light to the man who has become discouraged from useless doctoring. I get such letters every day. My Belt has a wonderful influence upon tired, weak nerves. It braces and invigorates them, and stirs up a great force of energy in a man.

I make the best electrical body appliance in the world, having devoted twenty years to perfecting it. I know my trade. My cures after everything else has failed are my best arguments.

Charles Smith, Box 62, Winona, Ont., writes:—In regard to your Electric Belt I am a good deal better since wearing it. The contraction of the muscles in my leg is all gone and the pain has disappeared, and I must thank you for the benefit I have received. I would not part with the Belt for double the amount I paid for it.

No pain can exist where my Belt is worn. There is not a remedy in the world so simple. You put it on at night. It cures while you sleep. Why not try it?

SPECIAL NOTICE—If you lay an old belt of another make which has burned and blistered you or one that did not possess electricity, bring it in and I will allow you one-half the price of mine for it.

FREE BOOK—My new illustrated book tells about my Belt and how it cures the weakness of men and women. It is worth reading. I will send it, closely sealed, free upon request. Call, if possible, and I will explain my Belt and what it will do. I will give a free test to every seeker of proof of what my Belt does. Call or write today.
